Financial Accounting Lab (FL1002)	Practice Assignment 1 - MS Excel
Total Marks: 25	Total Questions: 10

Instructions

- Create a new Excel workbook. Enter both datasets (Employee Data & Order Data) on separate sheets.
- Use formulas and functions only — no manual calculations.
- Save file as: Name_RollNo_Excel.xlsx
- Submit the Excel file with all formulas intact (do not paste values).

Section A – Employee Data Sheet (Questions 1–5)

Enter the following data in Sheet 1 (name it "Employee_Data"):

Emp ID	Name	Department	City	Salary	Bonus %	Experience
E001	Ahmed Khan	Finance	Lahore	85000	10	5
E002	Sara Ali	Marketing	Karachi	72000	8	3
E003	Bilal Tariq	IT	Islamabad	95000	12	7
E004	Hina Shah	Finance	Lahore	68000	9	2
E005	Usman Raza	HR	Faisalabad	60000	7	4
E006	Zainab Noor	IT	Karachi	110000	15	9
E007	Farhan Malik	Marketing	Lahore	75000	8	3
E008	Ayesha Butt	Finance	Islamabad	82000	11	6
E009	Omar Javed	HR	Faisalabad	58000	6	1
E010	Mehreen Iqbal	IT	Lahore	105000	14	8

- Calculate the total salary paid to employees in the "Finance" department. (Use SUMIF)
- How many employees are from "Lahore" AND have Experience ≥ 5 years? (Use COUNTIFS)
- Find the average salary of employees in the "IT" department. (Use AVERAGEIF)
- Use VLOOKUP to find the Department for Employee ID "E006".
- Calculate the Bonus Amount (Salary $\times$ Bonus%) for each employee in a new column using a formula. Use absolute/relative references correctly.

Section B – Order Data Sheet (Questions 6–8)

Enter the following data in Sheet 2 (name it "Order_Data"):

Order ID	Customer	Country	Product	Qty	Unit Price	Status
101	Ali Traders	Pakistan	Laptop	5	850	Delivered
102	Khan Corp	UAE	Printer	12	220	Pending
103	Noor Ltd	Pakistan	Monitor	8	340	Delivered
104	Gulf Tech	UAE	Laptop	3	850	Cancelled
105	Star Imports	Turkey	Keyboard	30	45	Delivered
106	Ali Traders	Pakistan	Mouse	50	25	Pending
107	Pak Solutions	Pakistan	Laptop	2	850	Delivered
108	Gulf Tech	UAE	Monitor	15	340	Pending
109	Noor Ltd	Pakistan	Printer	6	220	Delivered
110	Star Imports	Turkey	Keyboard	20	45	Cancelled

- Calculate the total revenue (Qty × Unit Price) for orders with Status = "Delivered" from "Pakistan". (Use SUMPRODUCT or helper column + SUMIFS)
- How many orders were placed by "Ali Traders"? (Use COUNTIF)
- Find the Product name for Order ID 107 using INDEX-MATCH (do NOT use VLOOKUP for this question).

Section C – MCQs (Questions 9–10) — 2 Marks Each

9. Which formula correctly calculates the total salary for Department = "IT" and City = "Karachi"?

- =SUMIF(C2:C11, "IT", E2:E11)
- =SUMIFS(E2:E11, C2:C11, "IT", D2:D11, "Karachi")
- =SUMIF(E2:E11, "IT", C2:C11)
- =SUM(E2:E11, C2:C11, "IT")

10. If cell A1 contains =B1*\$C\$1 and you copy it from A1 to A2, what will the formula in A2 become?

- =B1*\$C\$1
- =B2*\$C\$1
- =B2*\$C\$2
- =B1*\$C\$2
