

PARAGRAPH SAMPLE

Student sample: My laptop and Me

Personally, the machine that I cannot live without is my laptop. Many people criticize my generation for being on the computer too much! I ask them when is the last time they read an encyclopedia to gain information? I use my laptop mainly for the purpose of gaining information, that includes for leisure and for school. Another reason I am so attached to my laptop is because it provides me with entertainment. Cable has become so expensive and overrated, so instead I just watch television programs on the internet. Lastly, I require my laptop to earn money. As a 3-D graphics designer and a basic developer I require my laptop to earn money. **Therefore, in conclusion, I require my laptop to do various activities that are imperative to my daily life.**
